		<b>PLANNING   RESOURCE RECOVERY   RECYCLING WASTE MANAGEMENT - IWC</b>					
Resource Recovery	1	Minimum DWM per service: 80L or less fortnightly garbage, 240L fortnightly recycling 240L weekly food organic waste	\$427.50	\$457.50	7.0%	In 2021/22, Council harmonised the Domestic Waste Management Charge (DWMC) in conjunction with General Rates harmonisation. It was proposed to provide a DWMC partial cost recovery charge over 7 years drawing down on the reserve by \$7m over this period. This was to smooth out the impacts of changes caused by General Rates Harmonisation. In addition, the prior two financial years were generating a surplus of \$5m and Council had a reserve balance of \$30m. The DWMC was to transition over 7 years and increase above CPI in order to achieve a cost neutral charge by year 7.  Since the commencement of this offering, several factors have contributed to the reserve being depleted and an increase in the cost base. Whilst the reserve had a contingency to wear a portion of these costs, the gap between revenue and expenses is widening, further depleting the reserve in future. The increase above indexation is to bring the reserve to a healthy balance gradually over time.	Above Indexation
	2	Standard DWM per service:120L fortnightly garbage, 240L fortnightly recycling 240L weekly food organic waste*	\$570.00	\$610.00	7.0%		Above Indexation
	3	Maximum DWM per service :240L fortnightly garbage, 240L fortnightly recycling 240L weekly food organic waste*	\$854.50	\$915.00	7.1%		Above Indexation
	4	Opt in Weekly Garbage Bin Collection Charge (or free with Exemption)	n/a	\$200.00	n/a		New Fee
	5	Vacant Land/Availability Charge	\$285.00	\$305.00	7.0%		Above Indexation
			<b>PLANNING   RESOURCE RECOVERY   RECYCLING &amp; WASTE MANAGEMENT - IWC  Business Waste - IWC</b>
