7. Round Table Discussion and Feedback
8. Next Steps

Introductions and Welcome to Country

Update TfNSW Plans

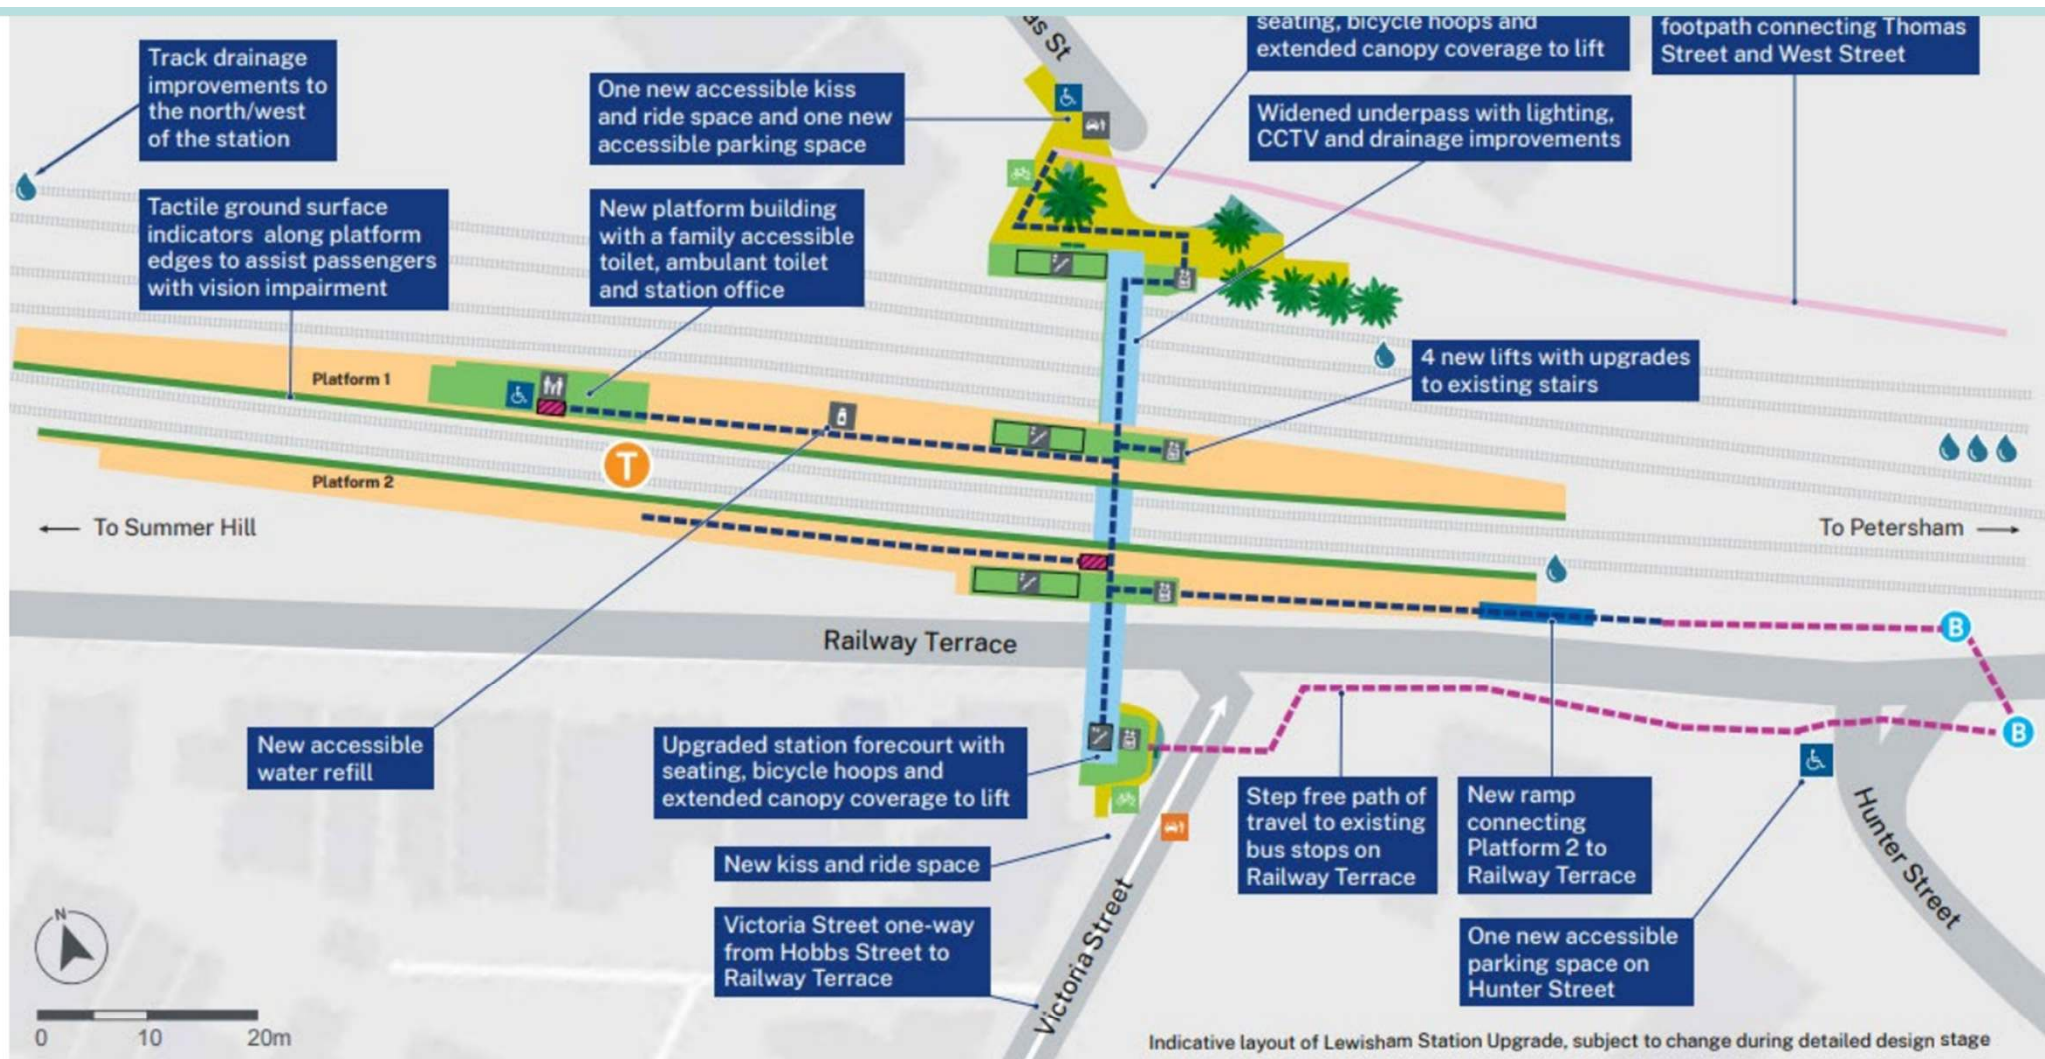

Project scope

Transport is upgrading Lewisham Station under the **Safe Accessible Transport program** to improve accessibility and safety for people with additional mobility requirements and other special needs, parents/carers with prams and customers with luggage.

Key features include:

- Four new lifts to improve access to platforms, underpass and surrounding streets.
- An accessible parking space and kiss and ride on Thomas Street, a kiss and ride on Victoria Street and an accessible parking space on Hunter Street.
- A new family accessible toilet, new station building, new hearing loops, platform regrading and tactile indicators.
- Improvements to address the flooding in the underpass.
- Design and placemaking enhancements including Connecting with Country design elements.
- Upgrades to path between Thomas Street and West Street.
- Safety and security improvements including lighting, CCTV, and wayfinding signage.

KEY

	Proposed features		Upgraded stairs		Kiss and ride space		Existing underpass
	Existing features		New lifts and landings		Accessible parking space		Existing footpath
	Boarding Assistance Zone		Accessible water refill		Bicycle hoops		Proposed paved area
	Accessible path of travel		New family accessible toilet		Taxi		Proposed landscaping
	Step free path of travel		Accessible kiss and ride space		Bus stop		Proposed seating
					Track drainage improvements		

Key Milestones

Milestone	Timeframe
Project planning approval	June 2025
Tender has been issued	December 2025
Contract award and on-boarding	February 2026
Detailed design process underway, including targeted stakeholder engagement	February onwards
Construction start	Mid 2026
Open to public	18-24 months after construction starts

Public Domain – What are we doing?

Inner West Council is seeking your feedback on how we can improve local streets surrounding Lewisham Station to help inform the Lewisham Town Centre Master Plan.

We want to hear your thoughts on improvements such as:

- Footpaths
- New furniture
- Bike infrastructure
- Greenery
- Traffic Calming Measures
- Public Artwork
- Wayfinding signage.

The improvements will help enhance the [upgrades Transport NSW will be carrying out](#) at Lewisham Station in 2026–2027.

Online results

- **Greening & Amenity:** High demand for trees, verge gardens, planter boxes, green walls; bushland regeneration; fencing cover; linked to village character.
- **Pedestrian Safety:** Crossings/refuges on Old Canterbury Rd & Victoria St; safer links to bus stops and station entries.
- **Cycling Connections:** Missing link Longport–Railway Terrace; uphill unsafe; proposals for separated lanes/shared zones.
- **Footpaths & Lighting:** Narrow/uneven paths; poor station visibility; need continuous paths; lighting upgrades on Jubilee/high-use routes.
- **Traffic Calming:** Lower speed (40 km/h); fix merge points; concerns over turn restrictions; one-way/shared street on Railway Terrace.
- **Public Art:** Mixed views—murals vs green walls.
- **Parking:** Tighter controls on Jubilee; more bike parking.
- **Maintenance:** Ausgrid pruning; stormwater flooding bike lanes.

Email and door knocking results

- **Railway Terrace:** Upgrade to low-speed shared street; improve cycling safety.
- **Greening:** Large brown wall along Railway Terrace, canopy trees, verge gardens.
- **Parking:** Better resident parking (Jubilee St and Hobbs St), timed parking (Boulevard), e-bike parking near station,
- **Footpaths:** Fix trip hazards (Victoria St), regulate nature strip plantings.
- **Traffic & Safety:** Clearway on Old Canterbury Rd/Henry St; pedestrian crossing on Henry St; install traffic mirror (Victoria → Railway Terrace).
- **Flooding:** Around 19 Victoria Street.
- **Trees:** Problematic species on Victoria/Hobbs causing property damage & droppings
- **Local Centre:** Lack of shops and vibrancy.
- **Cycleway:** Longport St installation removed parking; residents unhappy.
- **E-bikes:** Left at station entrance, causing access/safety issues.
- **Pedestrianisation:** Proposal for end of Victoria St not supported by all locals.
- **Dumped Rubbish:** Hunter Street.

Questions?

Roundtable discussion

1. What is working well in Lewisham?
2. What can we do to improve Lewisham ?
3. What are your top 3-4 priorities ?
