Have Your Say
Draft Masterplan Iron Cove Creek

Dear resident,

Council has developed a draft Iron Cove Creek Masterplan. It outlines ways to make Iron Cove Creek more accessible for cyclists and pedestrians as well as to offer more natural habitat. We are inviting you to provide your feedback on this Masterplan.

What is Iron Cove Creek?

Between Liverpool Road and Iron Cove, Iron Cove Creek extends for about 3.5 km, passing through Ashfield and Croydon in its upper reaches and Haberfield and Five Dock in its lower reaches.

What are the key features in the Masterplan?

- Improving connections to local facilities
- Making it easier to walk and cycle in the local area
- Unlocking access to the Iron Cove Creek corridor
- Making it easier to cross Parramatta Road
- Improving connections to regional green space
